ABOUT ME

I'm an enthusiastic and quick learner with a strong interest in technology and data. My experience as an Amazon FBA Virtual Assistant helped me build a solid foundation in digital tools, data handling, and remote teamwork. Now transitioning into IT, I'm developing skills in Python, with hands-on experience in NumPy, Pandas, and Matplotlib. I'm eager to contribute to real-world projects and grow in a professional tech environment.

EDUCATION

2023 - Continue	Bachelor Of Science: Artificial Intelligence. Sindh Madressatul Islam University, Karachi
2021 - 2023	Intermediate: Pre - Engineering. PECHS Education Foundation College, Karachi

COURSES / E-COURSES
